General Terms of the Partner Program

Consolidated version — last updated: November 2026

> This translation is provided for information. In accordance with Article 27, the French version prevails and is binding.

1. Purpose

These General Terms govern the terms of participation in the Compta NovaTech Partner Program.

The Partner Program allows professionals, companies or organisations to promote Compta NovaTech solutions and to receive remuneration in the form of a commission on eligible sales made through their involvement.

Joining the Partner Program implies unreserved acceptance of these General Terms.

2. Eligibility

The Partner Program is open to natural persons of legal age and to duly incorporated legal entities.

Compta NovaTech reserves the right to accept, refuse, suspend or terminate any application or participation without having to give reasons.

3. Admission to the program

Every membership application is subject to prior review.

The applicant guarantees the accuracy of the information provided when registering.

Compta NovaTech may request any document allowing it to verify the identity, professional activity or regulatory compliance of the applicant.

4. Commissions

The Partner receives a commission of 35% of the amount, excluding taxes, of each eligible sale.

The rule is simple: no sale, no commission. A commission is earned only once the sale has been validated in accordance with Article 5.

The commission is due once per sale, on the initial sale. Renewals, extensions or later purchases by the same customer do not give rise to a new commission, unless otherwise agreed in writing.

Sales made with a discount code or under a promotional offer (including codes distributed on LinkedIn, Product Hunt or AppSumo) do not give rise to any commission and are not counted in the Partner's sales.

5. Validation of sales

A sale is deemed valid only when:

- the customer is a new customer
- the lead is attributable to the Partner
- payment has been collected in full
- any trial period has ended
- no refund or dispute is pending

Compta NovaTech alone has the final say on the attribution of sales.

6. Payment terms

Commissions are calculated exclusively on amounts, excluding taxes, actually collected.

No commission is calculated on:

- VAT
- GST
- HST
- any other applicable tax

Validated commissions are paid within a maximum of thirty (30) days.

Payments are made by:
